INDEX TO VOLUME 11

The star (*) preceding the page number indicates an original article in THE ARCHIVES. No author entries are made except for original articles. Book Reviews, Obituaries and Society Transactions are indexed under these headings in their alphabetical order under the letters B. O. and S, respectively.

PAGE

Acromegaly; Putnam 744
histologic analysis of; Bailey 746
Adolescence, an adjustment of; Hamill 234
Alpers, B. J., Campbell, C. J., and Prentiss, A. M.: Spinal fluid sugar *653
Amyotonia congenita, case of; Fay 380
Anatomy, comparative, central hypoglossus tract; Mingazzini 352
changes in episomatic musculature of vertebrates; Vallois 476
comparison of cerebellar tracts in 3 teleosts; Addison 492
development of telencephalon in sphenodon punctatum; Hines 472
electrically excitable region of forebrain of alligator; C. Bagley, Jr., and C. P. Richter *257
experiments on reversal of spinal cord in amblystoma embryos; Detwiler 491
further notes on central nervous system of arachnids: scorpions, phalangids, and trap door spiders; Hanström 102
histologic localization in forebrain of reptiles; Rose 469
secondary visceral fibers in guinea-pigs; Allen 97
Aphasia and apraxia; P. Bailey *501
psychology of; van Valkenburg 88
Apraxia, aphasia and apraxia; P. Bailey *501

Bagley, C., Jr., and Richter, C. P.: Electrically excitable region of forebrain of alligator *257
Bailey, P.: Aphasia and apraxia *501
Cerebellar symptoms produced by suprasellar tumors *137
Tumors arising from ependymal cells *1
Bassoe, P.: Paralysis of ascending type in an adult due to bite by a woodtick *564
Bergman, G. W., and Rosanoff, A. J.: Constitutional psychoses ending in permanent recovery *70
Block, E. B., and Oppenheimer, R. H.: Comparative study of intraspinal pressure, blood pressure and intra-ocular tension *444
Blood in mental diseases; Weichbrodt 587

BOOK REVIEWS:
Biochemical Researches on the Urea Metabolism Function and on the Alterations of the Blood in Epilepsy; G. Cuneo 343
Essai sur les Caractères Intrinsèques des Secousses Musculaires et des Mouvements Involontaires Rhythmés Observés au Cours de l'Encéphalite Epidémique; E. Krebs 112
Group Psychology and Analysis of Ego; S. Freud 334
Handbook for Mental Nurses 619
Introduction to the Study of Mental Disorders; F. M. Barnes, Jr 619
Lectures on Endocrinology; W. Timme 748
Neurological Aspect of Leprosy ("Spedalskhed"); G. H. Monrad-Krohn. 620
Public Conscience. A Case Book in Ethics; G. C. Cox 111
Sur un Type de Paraplégie en Flexion d'Origine Cérébrale avec Exagération de l'Automatisme Médullaire; T. Alajouanine 110
Brain abscess, with especial reference to abscess of frontal lobe; Keer 221
functions of frontal lobes; Goldstein 571
hemorrhage, causation of, in new-born; Ehrenfest 596
relation of Brodmann-Vogt areas to cerebral convolutions; Wetzel 473
Swiss cheese brain; Mella 231

Brain—Continued PAGE
tumor; Curschmann 726
tumors, frontal lobe, primary optic atrophy in; Friedman and Globus.... 600
tumors, increased cranial vascularity in its relation to intracranial disease; C. A. Elsberg and C. W. Schwartz.....*292
tumors, neuro-otological examination in; Wishart..... 596
tumors, roentgen-ray treatment of; Nordentoft, 592; Brunetti..... 593
tumors, suprasellar, concerning cerebellar symptoms produced by; P. Bailey *137
Brock, S., and Wechsler, I. S.: Involuntary movements; their unusual association and relation to phenomena of decerebrate rigidity.....*698
Brown-Sequard syndrome caused by bullet; Ornsteen..... 378

Cadet problems; Kearns 584
Campbell, C. J., Prentiss, A. M., and Alpers, B. J.: Spinal fluid sugar....*653
Carbon monoxid asphyxia, cerebral edema and headache following; H. S. Forbes, S. Cobb and F. Fremont-Smith.....*264
Cauda equina, pains in tumors of; Wallgren..... 97
tumor of, with Froin syndrome; E. M. Hammes..... *82
Cerebellum, concerning cerebellar symptoms produced by suprasellar tumors; P. Bailey *137
functions; Rossi and Simonelli..... 93
origin and evolution of; C. J. Herrick.....*621
tremor in disease of; Leiri..... 471
Cerebrospinal fluid, collargol reaction of; Schmitt..... 585
sugar in; Alpers, 359; B. J. Alpers, C. J. Campbell and A. M. Prentiss....*653
Children, mental and physical health of schoolchildren; Brown..... 101
problem children; Dealy 595
subnormal and psychopathic, in special clinic; Lurie..... 490
Choked disk and optic neuritis in influenza; K. A. Menninger.....*328
Chorea, chronic, case showing cessation of choreiform movements in chronic chorea on palsied side after a stroke; Burr..... 614
etiology of; Rosenow 209
is it to be considered a province of epidemic encephalitis? Babboneix..... 488
Choroid plexuses and ventricles of brain as a secreting organ; Bland-Sutton 598
Cistern punctures; Ayer, 99; Ruggles..... 227
Climate, seasonal curves in mental disorders; Norbury..... 743
climatic psychoneurosis called the "nevada"; Escomel..... 724
Clinic, diagnostic, at Manhattan State Hospital; Raynor..... 596
Cobb, S., Fremont-Smith, F., and Forbes, H. S.: Cerebral edema and headache following carbon monoxid asphyxia.....*264
Convulsions, convulsive seizures in soldiers; A. J. Ostheimer..... *84
relation between infantile convulsions and chronic convulsive disorders of later life; D. A. Thom.....*664
Cranium, increased vascularity of, in relation to intracranial disease; C. A. Elsberg and C. W. Schwartz.....*292
Criminal and society; Read..... 103

Deception, use of polygraph in study of falsification; Larson..... 737
Decerebrate rigidity, involuntary movements; their unusual association and relation of dyskinetic and extrapyramidal syndromes to phenomena of; Brock and Wechsler.....496, *698
in man, case of complete; Walshe..... 217
Dementia praecox and arsphenamin; Page..... 221
praecox, ductless glands in; Morse..... 90
praecox, epidemic encephalitis with semblance of; Deny and Klippel..... 482
praecox, relation of puberty to behavior and personality in; Gibbs..... 466
praecox, schizophrenia as psychic system disease; Kleist..... 100
praecox, sex development and behavior in female patients with; C. E. Gibbs *179
Diabetes insipidus; case following epidemic encephalitis; Hall..... 218
mellitus and cerebral lesions; Camus, Gournay and LeGrand..... 492
Diagnosis, psychogalvanic reflex; Wechsler..... 602

PAGE

Dura mater, osteogenetic endothelioma of; Penfield 101
Dystonia musculorum, deformity of foot in; S. P. Goodhart and W. M. Kraus *436
Dystrophy, familial muscular; H. P. Mills, T. H. Haines and M. A. Sessions *43

Ebaugh, F. G., and Patten, C. A.: Tuberculous meningitis *707
Elsberg, C. A., and Schwartz, C. W.: Increased cranial vascularity in its relation to intracranial disease; with special reference to enlargement of veins of diploe and its relation to endotheliomas *292
Emotion, use of polygraph in study of falsification; Larson 737
Encephalitis, epidemic, ambulatory; L. Grimberg *64
epidemic, ataxic paraplegia following; Burns 383
epidemic, brain changes in, contrasted with those in typhus fever and acute poliomyelitis; G. B. Hassin *121
epidemic, case of parkinsonian syndrome showing tramping and champing movements; Fay 104
epidemic, comparative histopathology of acute anterior poliomyelitis; G. B. Hassin *28
epidemic, diabetes insipidus following; Hall 218
epidemic, experiments on etiology of respiratory arrhythmias following; E. C. Rosenow *155
epidemic, is Sydenham's chorea to be considered a province of it? Babboneix 488
epidemic, morphologic differentiation of meningo-encephalitis of rabbits from; J. Oliver *321
epidemic, on deformity of foot in dystonia musculorum; S. P. Goodhart and W. M. Kraus *436
epidemic, parkinsonian syndrome in; Gordon 378
epidemic, parkinsonian syndrome suggesting pseudobulbar palsy; onset following childbirth; Willey 105
epidemic, psychic disturbances with; Meyer 596
epidemic, resembling uremia; Yaskin 613
epidemic, spontaneous cure following pneumonia; Leiner 492
epidemic, symposium on 238
epidemic, two cases in same family; Ebaugh 254
epidemic, uncompensated alkalosis in; Harrop and Loeb 103
epidemic, with semblance of dementia praecox; Deny and Klippel 482
Ependymal cells, study of tumors arising from; P. Bailey *1
Epilepsy and migraine occurring in same individual; Winkelman 109
essential, psychobiologic concept of; Clark 99
in parrots; de Allende-Navarro 722
partial continuous, with especial reference to that produced by microscopic cortical lesions; G. Wilson and N. W. Winkelman *530
psychology of; Wiersma 593
psychotic symptoms of; Paine 468
salts of boron in; Cuneo 478
studies of metabolism in; nonprotein nitrogenous constituents of blood; W. G. Lennox, M. F. O'Connor and L. H. Wright *54
Erection sign; Flatau 597

Favill, J., and Rennick, C. F.: Case of family periodic paralysis *674, 730
Forbes, H. S., Cobb, S., and Fremont-Smith, F.: Cerebral edema and headache following carbon monoxid asphyxia *264
Frazier, C. H., and Russell, E. C.: Neuralgia of face; analysis of 754 cases with relation to pain and other sensory phenomena before and after operation *557
Fremont-Smith, F., Forbes, H. S., and Cobb, S.: Cerebral edema and headache following carbon monoxid asphyxia *264

Galen's veins, hemorrhagic extravasation from; Bagley 219
Ganglia, experimental production of basal ganglion symptomatology in macacus rhesus; H. Mella *405
Gastro-enterospasm as a manifestation of autonomic imbalance in early infancy; White 212

PAGE

Gibbs, C. E.: Sex development and behavior in female patients with dementia praecox *179
Goiter, exophthalmic; Sturgis 592
exophthalmic, in childhood; Heiman 220
See also under Thyroid
Goodhart, S. P., and Kraus, W. M.: Deformity of foot in dystonia musculorum *436
Grimberg, L.: Ambulatory encephalitis *64

Haines, T. H., Sessions, M. A., and Mills, H. P.: Familial muscular dystrophy *43
Hammes, E. M.: Tumor of cauda equina with Froin syndrome *82
Hassin, G. B.: Brain changes in starvation *551
Brain changes in typhus fever contrasted with those in epidemic encephalitis and acute poliomyelitis *121
Comparative histopathology of acute anterior poliomyelitis and epidemic encephalitis *28
Head injuries, diagnosis and treatment of; Sachs 597
Headache and vertigo in uricacidemia; report of 2 cases without clinical signs of nephritis or gout; W. H. Holmes *195
Hemianesthesia and complete atonic paralysis due to cerebral lesions; Mills 381
Hemiplegia, extrapyramidal; Gordon 612
hysterical; Solomon 739
organic nervous diseases supervening in subjects of old infantile; Weber. 100
Hepatolenticular degeneration; Raviart, Vullien and Nayrac 484
Heredity, evidence of effects of environment on germ plasm; Myerson 610
problems of, in mental diseases; Franziska and Minkowski 203
Herpes zoster generalisatus; Parounagian and Goodman 103
Herrick, C. J.: Origin and evolution of cerebellum *621
Holmes, W. H.: Headache and vertigo in uricacidemia *195
Hospitals, need of a neuropsychiatric department in general hospitals; Ordway 607
Hunt, J. R.: Theory of mechanism underlying inhibition in central nervous system *418
Hydrocephalus, subdural effusion and internal hydrocephalus; study of a case with recovery; Penfield 586

Influenza, optic neuritis and choked disk in; K. A. Menninger *328
Inhibition, theory of mechanism underlying inhibition in central nervous system; J. R. Hunt *418
Insanity, physiologic conditions under which insanity occurs; S. D. Ludlum. *282
Intelligence, mental ratings by group tests; Tulchin 734
method of determining mental age during a physical examination; D. M. Levy *669, 730
methods of testing; Stern 577

Kennedy, F., and Stevenson, L.: Testicular teratoma with secondary deposits in spinal column and meninges *151
—and Weiss, S.: Clinical experiments in myotonia congenita (Thomsen) with especial reference to parasympathetic nervous system *543
Kidney, insufficiency in mental diseases; Targowla and Badonnel 220
malformations in mentally disordered; Lewis 470
Kolmer's complement fixation test for syphilis; Russell 597
Kottman reaction in children; Little and Sutton 218
Kraus, W. M., and Goodhart, S. P.: Deformity of foot in dystonia musculorum *436

Lennox, W. G., O'Connor, M. F., and Wright, L. H.: Metabolism in epilepsy; nonprotein nitrogenous constituents of blood *54
Leprosy, neurologic aspects of; Monrad-Krohn 719
Levy, D. M.: Method of determining mental age during a physical examination *669, 730
Locomotion in ameba, effect of chemicals on; Edwards 216
Ludlum, S. D.: Physiologic conditions under which insanity occurs *282
Lumbar puncture: See Rachicentesis

PAGE

Malaria, nervous paludism; Papastratigakis 207
Medulla oblongata, tumor, disseminated sclerosis with symptoms of; Rhein 379
tumor in region of foramen magnum; J. H. W. Rhein.....*432
Mella, H.: Experimental production of basal ganglion symptomatology in Macacus rhesus *405
Meninges, spontaneous diffuse meningeal hemorrhage; Meylahn..... 87
testicular teratoma with secondary deposits in; F. Kennedy and L. Stevenson *151
Meningitis due to Micrococcus catarrhalis; Garland..... 590
tuberculous; F. G. Ebaugh and C. A. Patten.....*707
tuberculous, of adult, spinal fluid in; Bickel..... 574
Meningo-encephalitis of otorhinologic origin, symposium on..... 362
unusual case of pistol-bullet wound; Courtney..... 744
of rabbits, morphologic differentiation from epidemic (lethargic) encephalitis; with note on occurrence of parasites in former disease; J. Oliver *321
Menninger, K. A.: Optic neuritis and choked disk in influenza.....*328
Mental hygiene 201
in industry; Dershimer 101
officers of National Committee for Mental Hygiene..... 202
Metabolism, basal, further studies in; Bowman and Grabfield..... 361
Migraine and epilepsy occurring in same individual; Winkelman..... 109
cerebellar syndrome in; Siebert..... 591
Mills, H. P., Haines, T. H., and Sessions, M. A.: Familial muscular dystrophy *43
Movements, facial, dissociation of; Monrad-Krohn..... 220
head nystagmus in man; Woolsey..... 498
involuntary; their unusual association and relation to phenomena of decerebrate rigidity; S. Brock and I. S. Wechsler.....496, *698
old motor system and new; S. A. K. Wilson..... *385
Muscle hyperneurotization, experimental study of; B. Stookey.....*113
tonus, skeletal; Spiegel 568
Myasthenia gravis; report of case; Jackson and Bates..... 493
Myelitis, gonorrheal; Phifer and Forster..... 589
of unusual etiology; Courtney..... 223
Myotonia; Neustaedter 494
atrophica; Weisenburg 250
congenita (Thomsen) clinical experiments in; with especial reference to the parasympathetic nervous system; S. Weiss and F. Kennedy.....*543

Narcolepsy, case of; Bowman..... 357
Nerve anastomosis, some results of; Ballance..... 473
cells, changes in amount and distribution of iron-containing proteins of, following injury to their axons; Nicholson..... 489
cells, morphologic changes following injury to their axons; F. M. Nicholson *680
Neuralgia, facial, analysis of 754 cases with relation to pain and other sensory phenomena before and after operation; C. H. Frazier and E. C. Russell *557
Neuritis, familial hypertrophic, and neurofibromatosis; Bielschowsky..... 91
optic, and choked disk in influenza; K. A. Menninger.....*328
Neurofibromatosis and familial hypertrophic neuritis; Bielschowsky..... 91
von Recklinghausen's disease; with especial consideration of endocrine connection; B. R. Tucker.....*308
surgical complications of; Phemister..... 235
Neuropathy in infancy; deLange..... 216
Neurosyphilis and pallidal disease; Urechia and Elekes..... 576
in late congenital syphilis; Zabriskie..... 591
"Nevada," climatic psychoneurosis; Escomel..... 724
Nicholson, F. M.: Morphologic changes in nerve cells following injury to their axons *680

OBITUARIES:
Henry Hun, 1854-1924..... 711
Harold Nicholas Moyer, 1858-1923.....462, 731
Obsession, case of morbid fear; Campbell..... 359

PAGE

O'Connor, M. F., Wright, L. H., and Lennox, W. G.: Metabolism in epilepsy; nonprotein nitrogenous constituents of blood..... *54
Oliver, J.: Morphologic differentiation of meningo-encephalitis of rabbits and epidemic (lethargic) encephalitis; with note on occurrence of parasites in the former disease.....*321
Ophthalmoplegia, congenital; Hoffman 729
Oppenheimer, R. H., and Block, E. B.: Comparative study of intraspinal pressure, blood pressure and intra-ocular tension.....*444
Orientation, photic, in insects; Mast..... 209
Osteitis deformans, amyotrophic lateral sclerosis with signs of; Viets..... 225
deformans, case assuming a malignant character; Kennedy..... 599
Ostheimer, A. J.: Convulsive seizures in soldiers..... *84

Pain, splanchnogenic, mechanism of; R. Ruiz Arnau.....*448
Paralysis, acute ascending, pathogenesis of Landry's paralysis; Grünewald 467
acute ascending, pathologic anatomy of; Landry's paralysis; Grünewald 213
agitans, parkinsonian syndrome in; Gordon..... 378
agitans, pathology of; Byrnes 614
agitans, use of hyoscin in; Weisenburg..... 107
complete atonic, due to cerebral lesions; Mills..... 381
family periodic, case of; J. Favill and C. F. Rennick.....*674, 730
laryngeal, associated with jugular foramen syndrome and other syndromes; New 98
of ascending type in an adult due to bite by a woodtick; P. Bassoe.....*564
progressive, in state hospitals; Furbush..... 215
progressive, juvenile, 2 cases; Rosenheck..... 494
progressive, treatment with tryparsamide; Read and Paskind..... 740
pseudobular, symptoms and pathogenesis of; Wartenberg..... 479
Paranoia, experiments with use of definition method in chronic paranoid cases; Glaser 477
Paraplegia, ataxic, following epidemic encephalitis; Burns..... 383
Parathyroidectomy, effect of; Hammett..... 100
Parkinsonian syndrome: See under Encephalitis, epidemic
Pathology, comparative, experimental production of basal ganglion symptomatology in Macacus rhesus; H. Mella.....*405
Patten, C. A., and Ebaugh, F. G.: Tuberculous meningitis.....*707
Penitentiary, psychiatric problems in; Phillips..... 732
Physical examination, method of determining mental age during a physical examination; D. M. Levy.....*669, 730
Pituitary body, dyspituitarism with suprasellar cyst..... 746
dyspituitarism with pituitary adenoma and large sella; Horrax..... 745
Poliomyelitis, brain changes in typhus fever contrasted with those in epidemic encephalitis and acute poliomyelitis; G. B. Hassin.....*121
note on comparative histopathology of epidemic encephalitis; G. B. Hassin *28
organic nervous diseases supervening in subjects of old; Weber..... 100
Posterior cerebellar artery, right, occlusion of; Gowler and Hope..... 98
Prentiss, A. M., Alpers, B. J., and Campbell, C. J.: Spinal fluid sugar....*653
Pressures, comparative study of intraspinal pressure, blood pressure and intra-ocular tension; E. B. Block and R. H. Oppenheimer.....*444
Psychiatry, some fundamental problems of; Paton..... 606
Psychopathic personality; Peck 594
Psychosis difficult of diagnosis; Herman..... 357
considerations bearing upon; Goodall..... 589
constitutional, ending in permanent recovery; A. J. Rosanoff and G. W. Bergman *70
recurring with menstruation, result of radiation in; Ewald..... 583

Rachicentesis, meningitic symptoms rapidly following lumbar puncture and rapidly disappearing; Spiller and Payne..... 108
Reaction times, affective; Wells..... 359
Recklinghausen's disease: See Neurofibromatosis
Reflexes of new-born; de Angelis..... 214
psychogalvanic; Wechsler 602
pulmonary segment; Bullowa 481
Rennick, C. F., and Favill, J.: Case of family periodic paralysis.....*674

PAGE

Rhein, J. H. W.: Tumor in region of foramen magnum.....*432
Rib, cervical; Erney..... 376
Richter, C. P., and Bagley, C., Jr.: Electrically excitable region of forebrain of alligator *257
Rigidity, decerebrate: See Decerebrate rigidity
Rosanoff, A. J., and Bergman, G. W.: Constitutional psychoses ending in permanent recovery *70
Rosenow, E. C.: Experiments on etiology of respiratory arrhythmias following epidemic encephalitis *155
Ruiz Arnau, R.: Mechanism of splanchnogenic pain.....*448
Russell, E. C., and Frazier, C. H.: Neuralgia of face; analysis of 754 cases with relation to pain and other sensory phenomena before and after operation *557

Schwartz, C. W., and Elsberg, C. A.: Increased cranial vascularity in its relation to intracranial disease; with special reference to enlargement of veins of diploe and its relation to endotheliomas.....*292
Sciatica, cerebrospinal fluid changes in; Heinze..... 588
Scleredema adultorum following influenza; Hoffman..... 95
Sclerosis, amyotrophic lateral, of rapid development in a girl of 26; O'Brasky 249
amyotrophic lateral, with signs of Paget's disease; Viets..... 225
disseminated, hereditary occurrence of..... 483
disseminated, with symptoms of tumor of medulla oblongata; Rhein..... 379
Sessions, M. A., Mills, H. P., and Haines, T. H.: Familial muscular dystrophy *43
Sex, psycho-sexuality of college graduate men; Peck and Wells..... 582
Skin, pathology of vegetative functions of; Bowing..... 348
Society Transactions:
Boston Society of Psychiatry and Neurology.....223, 357, 498, 607, 744
Chicago Neurological Society.....234, 362, 729
New York Neurological Society.....238, 494, 599
Philadelphia Neurological Society.....104, 248, 376, 612
Soldiers, convulsive seizures in; A. J. Ostheimer..... *84
Spina bifida, anterior; Bell..... 96
Spinal cord, birth hemorrhage into; Kohlbry..... 219
early symptoms in diagnosis of tumors of; Elsberg..... 92
experimental cord crushes; McVeigh..... 486
intrathecal cervical tumor; Pearson..... 594
secondary cancers of, without osseous or meningeal involvement; Puech. 102
Spinal radiography by means of lipiodol; Sicard, Paraf and Laplane, 490; Ayer and Mixter 499
Starvation, brain changes in starvation; G. B. Hassin.....*551
Stevenson, L., and Kennedy, F.: Testicular teratoma with secondary deposits in spinal column and meninges.....*151
Stookey, B.: Experimental study of hyperneurotization.....*113
Striate body, anatomo-clinical syndromes of, in old men; Lhermitte..... 716
Sympathetic nervous system, physiopathology of; Laignel-Lavastine..... 489
Syphilis, bismuth in treatment of; Hopkins..... 102
late congenital, neurosyphilitic lesions in; Zabriskie..... 591

Tabes dorsalis, case showing an active iritis; Erney..... 248
Teratoma, testicular teratoma with secondary deposits in spinal column and meninges; F. Kennedy and L. Stevenson.....*151
Tetany in adult; Tileston and Underhill..... 214
infantile, treatment, with ultraviolet radiation; Hoag..... 221
Thom, D. A.: Relation between infantile convulsions and chronic convulsive disorders of later life.....*664
Thymoma, malignant epithelial; Foot and Harrington..... 206
Thyroid gland, relationship to nervous system; Oswald..... 581
tumor, pathology of nodular (adenomatous?) goiters; Wilson..... 211
Thyroparathyroidectomy, effect of; Hammett..... 100
Tick-bites, paralysis of ascending type in an adult due to bite by a wood-tick; P. Bassoe.....*564
Tongue, hemiatrophy of; Leavitt..... 251

PAGE

Toxemia, hypodermoclysis in; Fletcher 598
Tremor, hemitremor of type of multiple sclerosis due to rubrothalamo-subthalamic lesion; Chiray, Foix and Nicolesco 487
in cerebellar disease; Leiri 471
Trephination, decompressive and ventricular puncture; Barré and Morin .. 493
Triceps brachii, action of; Cassirer 595
Tryparsamide, use of, at psychopathic hospital; Solomon 360
Tucker, B. R.: Von Recklinghausen's disease; with especial consideration of endocrine connection *308
Tumors arising from ependymal cells; P. Bailey *1
See also Brain tumors; Teratoma; Thymoma; etc.
Typhus fever, brain changes in, contrasted with those in epidemic encephalitis and acute poliomyelitis; G. B. Hassin *121

Uricacidemia, headache and vertigo in, report of 2 cases without clinical signs of nephritis or gout; W. H. Holmes *195

Ventricles and choroid plexuses of brain as secreting organ; Bland-Sutton 598
puncture; Ruggles 227
puncture and decompressive trephination; Barré and Morin 493
Vertigo and headache in uricacidemia; report of 2 cases without clinical signs of nephritis or gout; W. H. Holmes *195

Water intoxication; Rowntree 579
Wechsler, I. S., and Brock, S.: Involuntary movements; their unusual association and relation to phenomena of decerebrate rigidity *698
